

# How to get to the HP Barcelona Site in Sant Cugat

The HP Barcelona Site is off the AP-7 Highway lateral roadway (B-30), within the "Can Graells" business park, in Sant Cugat del Vallès.

to Airport via  
AP-2/AP-7

to Barcelona via "Tunels de Vallvidrera"

## From Barcelona by car

You have two options:

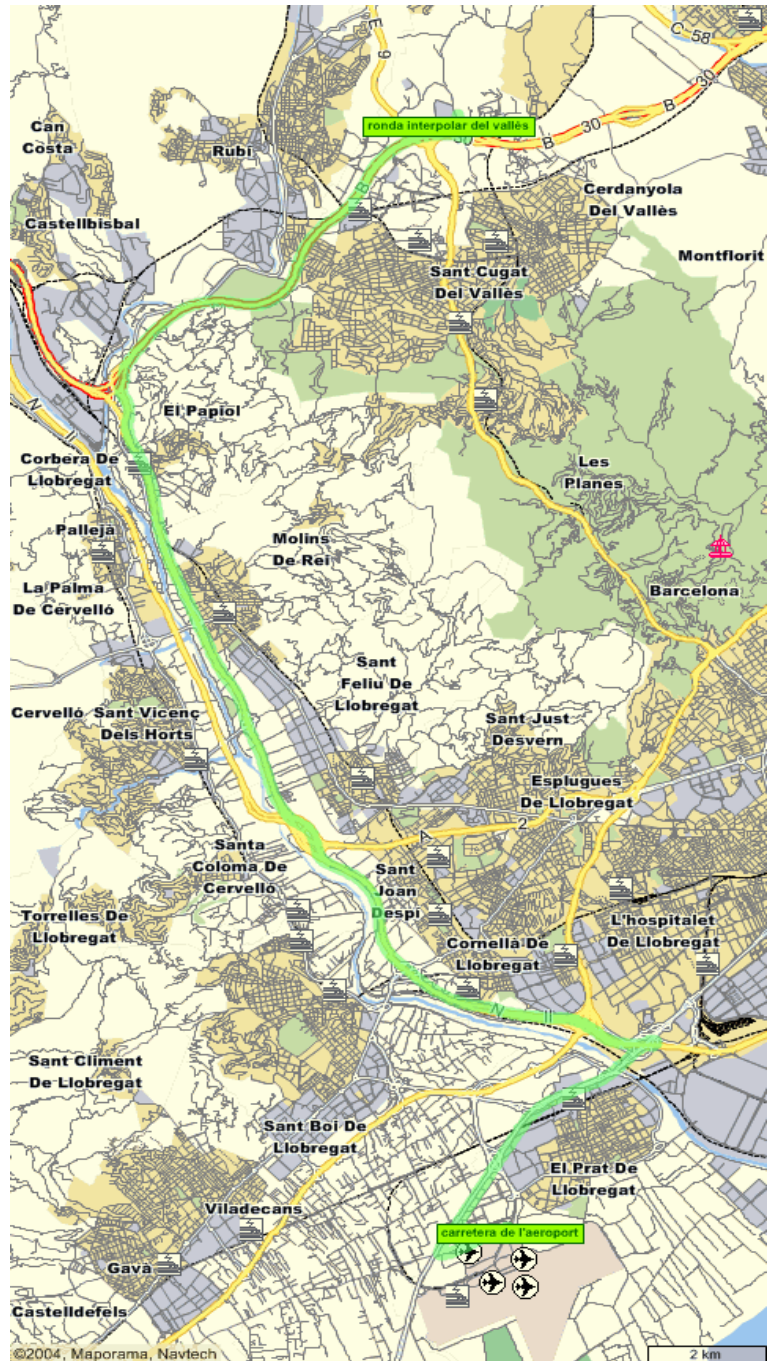

1. **Via 'Tunels de Vallvidrera'**. The best way is through the 'Tunels de Vallvidrera' highway (toll), in the northwest part of the city. After the tunnels and past the Sant Cugat exits, follow the signs to "Girona/Francia". At the "Girona/Francia" exit, stay on the right lane (the Calzada Lateral, following the *white* "Girona/Francia" sign, not the blue one) continue on the ramp to a first rotary where you go left (270 degrees) on the bridge over the highway. After the bridge you encounter a second rotary, where you take the 2<sup>nd</sup> road towards HP. The first gate to your left is the entrance to the HP site.

2. **Via AP-2/AP-7 Highways**. Through the Take the AP-2 direction Tarragona/Lleida and connect to the AP-7 highway direction Girona/Francia. In about 4 kilometers take the right ramp to the lateral's AP-7 Highway (direction Sant Cugat - Rubi), called B-30. In approximately 5 minutes you can see the HP building on your left side ((next to Deutsche Bank). You then follow the exit ramp marked "Can Graells". The ramp takes you to a first rotary where you go left (270 degrees) on the bridge over the highway. After the bridge you encounter a second rotary, where you take the 2<sup>nd</sup> road (180 degrees) towards HP. The first gate to your left is the entrance to the HP site.

## From Barcelona Airport

Make sure to keep following the AP-2/AP-7 signs (and not the Barcelona downtown exits). After about 20 km, take the exit for Girona/France. Once on the AP-7, in about 4 km take the right ramp to the AP-7 lateral Highway (Calzada Lateral, or B30), which runs parallel to the AP-7. Stay on the Calzada Lateral for about 2km. Just after the intersection with the 'Tunels of Vallvidrera' highway, you will see the HP building on the left (next to Deutsche Bank). Follow the exit ramp marked "Can Graells". The ramp takes you to a first rotary where you go left (270 degrees) on the bridge over the highway. After the bridge you encounter a second rotary, where you take the 2<sup>nd</sup> road (180 degrees) towards HP. The first gate to your left is the entrance to the HP site

If you're taking a taxi and the cab driver does not know where HP in Sant Cugat is, try mentioning the "Novotel in Sant Cugat", or the "Television Española in Sant Cugat" which are both in the Can Graells business park.

## From Barcelona by Train :

Take the FGC (Ferrocarrils de la Generalitat de Catalunya) from downtown (Plaza Catalunya). Take the train S2 (direction Sabadell) or S55 (direction Universitat Autònoma), and get off at the 'Sant Joan' station (the station after Sant Cugat). Outside the station in San Joan you'll find a free shuttle bus that runs every 10 minutes which stops right in front of the HP site. Information about the FGC is at <http://www.fgc.net/>
